Gentlemen:

It has again been brought to my attention that return receipts for registered documents mailed to this office by your company continue to state the name and address of your firm in lieu of the security approved addresses of:

25X1

The most recent violation of this requirement was by document "Registered No. 35287." Since such security violations have been called to your attention on several previous occasions, the latest of which was to [REDACTED] on 1 July 1959, this office has no alternative other than to charge your company with a security violation and to direct that immediate steps be taken to insure that all future documents and return receipts will indicate the proper return addresses.
